SCHOOL HOLIDAY PROGRAM

30 SEPTEMBER TO 4 OCTOBER 2019

EDUCATIONAL PROGRAM FOR 5 to 12 YEAR OLDS

LEARNING CENTRE, MUSEUM
10.30AM TO 3PM DAILY

WEDNESDAY 2 OCTOBER

THE POWER OF MOTHER NATURE

The Greatest Show on Earth or Natural Disasters? You decide!

- Create your own 'earthquake' and wonder at the results. Explore the mind-bending marvel of volcanic eruption and the rocks that are created as a result. Direct your own tsunami and landslide disaster movie but avoid being the star!
- Learn about famous Australian rocks. How does erosion and quicksand work? Create your own and test them out.
- Discover the world of magnetic rocks and have fun with magnets.

MONDAY 30 SEPTEMBER 2019

WHO'S WHO IN THE ROCKY ZOO?

- Meet our resident geologist and take a behind the scenes look at some of the QVMAG geology collection.
- Bring your own rocks and learn how to identify them, paint your own 'pet' river rock.
- Learn how rocks are formed and create your own sedimentary sandwich and chocolate rock cycle (to be eaten at home!).

THURSDAY 3 OCTOBER

FROM ROCK TO SAND AND EVERYTHING IN BETWEEN

- Find out about the layers of the earth's rocks and what they can tell us. Create your own geological world in a jar.
- Examine the world of core samples and make your own cupcake core extravaganza!
- Learn about how rocks turn into sand and everything in between and use them all in craft projects.

TUESDAY 1 OCTOBER

ENTER THE AMAZING WORLD OF CRYSTALS AND GEMSTONES

- Learn about how crystals are formed and create your own geodes.
- Make your own goniometer to measure the angles of crystals and prepare a magical crystal picture.
- Make your own glittering gemstone slime.

FRIDAY 4 OCTOBER

WONDERS OF OUR PRECIOUS GEOLOGICAL WORLD

- Learn about lustre and luminescence in the world of minerals.
- Play the stalagmite and stalactites games and learn how to grow your own at home.
- Start your own gold rush and hunt for precious gems and minerals.
