INTRODUCTION

This is a collection of fragmentary and disparate mining records, ranging in date from 1888 to 1984.

Geographically most of the records relate to north-eastern Tasmania, but King Island, Mt Bischoff, Beaconsfield, Lefroy and Cape Barren Island are also represented. Most of the material refers to tin mining and a small number concern gold mines. Only one item is held for some mining companies; however there are 15 items for Australian Anglo American Ltd, Tasmanian Division, and seven for Storey's Creek Tin Mining Company NL.

The collection was donated to the Queen Victoria Museum and Art Gallery during the 1992-1993 financial year.
