

FLYING MACHINES

Make your own flying machines!

QVMAG is home to a replica of the Blériot XI aeroplane which was built by Tasmanian TAFE students.

The Blériot XI was the first aeroplane to cross the English Channel. This historic flight took place in 1909 between Calais in France, and Dover in England.

What you will need

- Paper
- Scissors
- Markers if you want to decorate your flying machines

What to do

Make your own paper planes and fly them. Which design flies the farthest?

If you need some inspiration or instructions check out <http://www.10paperairplanes.com/>

Take it further

The original Blériot XI is on display at the Smithsonian National Air and Space Museum in the USA. Check out the Blériot XI and other flying machines at <https://airandspace.si.edu/>
