INTRODUCTION

Fenton Timber Products Pty Ltd was a division of Gunns Kilndried Timber Industries Ltd, operating by the early 1960s until about 1994. Its premises were located in Forster Street, Launceston. The firm manufactured good quality timber products for local and mainland customers. Using mainly blackwood, Tasmanian oak, myrtle and radiata pine, the products included garden, domestic and office furniture.

The collection was donated to the Queen Victoria Museum and Art Gallery about 1994.

1.Miscellaneous Records
